Title: Non-resident landowners

The problem: Non-resident landowners are required to purchase non-resident hunting licenses.

At present, all non-residents landowners are required to purchase an out of state license. A fee schedule should be developed to give non-resident landowners the opportunity to purchase a hunting license for the same fee as residents provided that each owner own a share equaling 40 acres per person.

The state of Wisconsin should develop a license for non-resident landowners with a fee similar to that of residents.

BE IT RESOLVED, that the Conservation Congress at its annual meeting held in Pepin County on April 8, 2013 recommends that the Conservation Congress work with the Department to correct this situation by introducing rule change allowing non-resident landowners (owning a share equaling 40 acres per person) to purchase a non-resident license for the same fee as a resident.
